The application has been amended as follows: the first paragraph of the specification has been amended to include the updated status of the applications to which priority is claimed. The first paragraph is amended as follows:

"This application is a continuation-in-part of U.S. Application Serial No. 09/599245, filed June 22, 2000, which is now U.S. Patent No. 6,728,573, which in turn, claims priority from U.S. Provisional Application Serial No. 60/184,498 filed February 23, 2000. This application is likewise a continuation-in-part of U.S. Application Serial No. 09/318,181 filed May 25, 1999, which is now U.S. Patent No. 6,319,240."

The following is an examiner's statement of reasons for allowance: The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was an ocular apparatus with a medicament containment member, current distribution member, handle and structural elements which maintain the apparatus on the eye by cooperating with the proximal soft tissue of the eye, as well as the other elements in combination with the above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
